

## REQUEST FOR INFORMATION

Date Posted: 07 October 2024

### **Trust Banking System (TBS) Servers Windows Operating System (OS) and Database (MS SQL) version upgrade**

---

#### Description:

OS upgrade of TBS Servers from Windows Server 2012 to Windows Server 2022 and upgrade the existing SQL Server from Version 2012 to 2022. This is due to the end of support of Windows Server 2012. This will ensure the continuous software support for the users of TBS. Likewise, it will also address the System Vulnerability findings.
