

## REQUEST FOR INFORMATION

Date Posted: 08 November 2024

### **Business Consultancy Services for the Validation of Risk Measurement Models**

---

#### **Description:**

As part of LANDBANK's risk control measures, the business consultancy services will provide an independent validation of the risk models integral to the risk management process of the Bank and is a critical step in complying with independent model validation requirements of BSP. The business consultancy services also seek to help the Bank benchmark and align its current risk models with the best industry practices. Furthermore, the consulting services will help improve and strengthen its risk measurement and management procedures on the Bank's market, liquidity and credit exposures.
