

REQUEST FOR INFORMATION

Title of the project	One (1) Year Software Maintenance Agreement for Oracle Financial Services Data Foundation with Support Contract No. 21381126
Date of Posting	10 February 2025
Description	<p>LANDBANK is inviting interested vendors to participate in the budget discovery/exploratory study for the One (1) Year Software Maintenance Agreement for Oracle Financial Services Data Foundation with Support Contract No. 21381126</p> <p>RHEL Consolidation server for Development, UAT and staging environment review of alternative support options for Oracle FSDF, including third-party providers and in-house maintenance, revealed key limitations such as the lack of proprietary updates, vendor-certified expertise, and increased resource requirements. These pose risks to system integrity, security, and compliance. Oracle's official support ensures access to critical patches, security updates, and expert assistance, minimizing disruptions and maintaining regulatory alignment. Given these factors, renewing the one-year Oracle FSDF support remains the most viable and risk-mitigating choice. Renewing the one-year Oracle FSDF support ensures system stability, security, and compliance.</p>
